

Series P-05

3/2-, 5/2- and 5/3-way,

G 1/8, 750 Nl/min (0.762 Cv)

Pneumatically operated spool valve. The valve switches upon pressurization of the pilot port (10 or 12). valve P-05-311 is available for use with vacuum, order number P-05-312. The pressure can be connected at 1 (normally closed) or at 3 (normally open). For manifold mounting see series R-181/n (page 4.116). Valve P-05-320 and P-05-322 is available for use with vacuum (– 0.95 ... 10 bar / –14 ... 175 psi). Order number changes to P-05-320-Q and P-05-322-Q. Valves of this series are available in explosion proof design in accordance with 94/9/EG (ATEX). For further details see chapter 12 of this catalogue.
