

Series RE-44

Multi-pin connection,
4 - 16 valve stations,
360 NI/min (0.366 Cv

Design and function

Manifold system with integrated electrical connection including LED, manual override and built-in circuit protection. The above order code covers only the manifold. The valves and the multi-pin plug with cable must be ordered separately. The valve terminal is delivered pre-assembled and function tested. If not specified with the order, valve configuration is as follows: Valves are mounted according to their order number, starting with high numbers (MF-44-533-HN-...) on the side of the multi-pin, ending with low numbers (MF-44-510-HN-...) on the opposite side, followed by blind plates (RE-44-VP, if ordered).
