

## Series RE-19

Multi-pin, AS-Interface,  
or fieldbus connection,  
4 – 24 valve stations,  
900 and 2100 NI/min  
(0.965 and 2.134 Cv)

### Design and function

Manifold system with integrated electrical connection including LED indicators, manual override and built-in circuit protection. Valves with connection G 1/4 (2100 NI/min / 2.134 Cv) require 2 stations on the manifold. The above order code covers only the manifold. The multi-pin plug with cable must be ordered separately. The valve terminal is delivered pre-assembled and function-tested. If not specified with the order, valve configuration is as follows: Valves are mounted according to their order number, starting with high numbers at the side of the multi-pin, ending with low numbers on the opposite side, followed by blind plates (if ordered).
